

IJCA

Indian Journal of Clinical Anaesthesia

Volume - 4, Issue - 1, Year - 2017 (www.ijca.in)

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2025-02-06**.

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, editor@ijca.in', 'Support: +91-11-6336414, 6336415 | 9850426146 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and contains the following text: 'Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels. MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals. Why MPRP? If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'. An illustration shows a person at a desk with a laptop, surrounded by icons representing various aspects of the peer-review process like 'Quality of content', 'Editorial workflow', and 'Post-publication services'. The IESRF logo is visible in the bottom right corner.

CONTENTS**Editorial:**

2014 ACC/AHA guidelines for cardiac patients undergoing non-cardiac surgery – omitted zones 1-2*Ragi Jain***Review Article:**

Postoperative delirium – Review Article 3-7*Sadhana Sudhir Kulkarni, Savani Sameer Futane***Original Article:**

A randomized comparative study on brachial plexus block using nerve stimulator: infraclavicular - coracoid approach vs supraclavicular approach 8-12*A.Niranjan Kumar, NV. Madhava Krishna, VJ. Karthik, S. Mahalakshmi***Comparative study between thoracic epidural and general anesthesia for modified radical mastectomy 13-15***Amit Bhardwaj, Balwinder Singh, Arwinder Pal Singh***To study the effect of oral pregabalin as premedicant on post-operative analgesia in patients undergoing hysterectomy after spinal anaesthesia 16-20***Anita Kumari, Lakshmi Mahajan, Gifty Singh, Pankaj Serangal, Ruchi Gupta***Comparison of spinal anaesthesia with lumbar plexus block for postoperative analgesia in fracture neck femur surgery 21-25***Ankur Gandhi, Kalpeshkumar Mistry***Comparative evaluation of subclavian vein catheterization using supraclavicular versus infraclavicular approach 26-29***Atikahmed Gulamdagir Momin, Priti M. Patel, Madhuri A. Bhade, Jenish Patel, Dhruv Shah***A comparative study between dexmedetomidine, clonidine and magnesium sulfate in attenuating hemodynamic response to laryngoscopy and intubation – a randomised study 30-36***Bidyut Borah, Mukesh I Shukla, Nirali K. Joshi, Parasmani***Oral gabapentin for postoperative pain relief after lower limb surgery – a randomized controlled trail 37-40***Thasleem Arif K, Binil Isaac Mathew, Vijish Venugopal***A prospective comparative study to compare cardiovascular response to laryngoscopy and intubation after induction of anaesthesia by propofol and etomidate 41-45***Kaushal Kabir, Gaurav Acharya, Manish Banjare, KK Arora, Sachin Kumbhare***Pretreatment of magnesium sulphate accelerates neuromuscular block as compared to vecuronium priming – A randomized trial 46-50***Nalini KB, Muralidhar Danappa Patel, Pandya Khushal*

Comparative study of two doses of bupivacaine along with fentanyl citrate in spinal anaesthesia for short surface surgeries below umbilicus 51-55

Kalpeshkumar Mistry, Ankur Gandhi

Comparison of epidural ropivacaine vs bupivacaine with addition of fentanyl or dexmedetomidine in major lower limb orthopaedic surgery 56-63

Ajay Sriram Ayyappan, Kannan Santhanakrishnan

Evaluation and comparison of intravenous clonidine and intravenous dexmedetomidine on duration of bupivacaine spinal anesthesia 64-68

Kalyani Nilesh Patil, Kavita Udaykumar Adate, Shalini Pravin Saredesai

A comparative study between 0.375% ropivacaine with 50mcg of dexmedetomidine and 0.375% ropivacaine with 8mg of dexamethasone for ultrasound guided supraclavicular brachial plexus block 69-73

Krishna Chaithanya, Asritha, Narasimha Reddy, Sangamithra

Comparison of three different regimes of oxytocin in patients undergoing elective caesarean section to estimate the haemodynamic changes and uterine contraction 74-79

Shetty Guruprasad, Bhat Manjunath Timmappa, Torgal SV

A study of effectiveness of 0.5% bupivacaine for sensory blockade as local anesthesia in epidural and spinal phase 80-83

Pandurang K. Jadhav

A retrospective analysis of intraoperative blood transfusion practices in patients undergoing thoracotomy and major lung surgery in an Indian tertiary care hospital and formulation of a maximum surgic 84-87

Prachi Kar, Shibani Padhy, R. Gopinath

Attenuation of hemodynamic response to laryngoscopy and endotracheal intubation - comparison of fentanyl, esmolol and metoprolol in normotensive individuals 88-93

Pratheeba N, Remadevi R, Ravindra Bhat R, Sanjeev Kumar B

Comparison of uterotonic effects of three low dose oxytocin regimens; bolus plus continuous infusion, bolus or continuous infusion during elective caesarean section: A double blind randomized control 94-98

Jayesh Shakeet, Rakhi Bansal, Mridul Janweja, Sarita Janweja

Comparison of recovery profile of desflurane and sevoflurane in dental surgeries 99-102

Roopal Rambhai Garaniya, Vandana Hooda, Vaishali Gautam

A prospective observational study of I-gel supraglottic airway in short gynaecological laparoscopic surgeries 103-105

Savita Choudhary, Alka Kewalramani (Chhabra), Pooja Gandhi

Comparative study of bupivacaine with dexmedetomidine and only bupivacaine during brachial plexus block 106-111

Sachin Totawar, Meghshyam Kulkarni

Correlation of ultrasound guided measurement of inferior vena cava diameter to central venous pressure to assess the volume status of intensive care unit patients 112-117

Placid Siroraj, Sunder Panneerselvam, CR Saravannan

Comparison of serum lactate and base excess in predicting the survival outcome in polytrauma patients 118-121

Sushma Konduri, Bhargavi Bollampally, Sai Satyanarayana V. Pelluri

Etomidate versus Propofol as induction agent in patients undergoing Endoscopic Retrograde Cholangiopancreatogram (ERCP) 122-127

Swati Bisht, Sadanand Gopal

Efficacy of intravenous nitroglycerine in attenuation of hemodynamics to laryngoscopy and intubation 128-131

T. Mohan Singh, Srivani M

Induction characteristics of sevoflurane in children: A comparison with halothane 132-137

Tejesh CA, Shashikala TK, Viswanathan PN

Infantile hypertrophic pyloric stenosis - does optimal pre-operative stabilisation enhance recovery: a retrospective study 138-142

Uma BR, Narasimha Gnani BC, Vinay BT, Mohan Marulaiah, Harsha BM

Comparison of intraperitoneal bupivacaine alone or with dexmedetomidine or tramadol for post operative analgesia following laparoscopic cholecystectomy 143-146

Mukkavilli Lakshmi Narasimham, B. Dinakar Rao

Case Report:

Excision of right nasolabial cyst under intra oral infra orbital nerve block – a case report and a short review 147-149

S. Parthasarathy, K. Indu

Anaesthetic management of primigravida with ovarian cyst for emergency laprotomy- A case report 150-152

Rupali N. Gorgile, Sunita Shende, Sanyogita V. Naik
