The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, iesrf@iesrf.in' and 'Support: +91-11-639414, 639415 | 9850426146 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and describes the web-based portal's 24/7 availability and editorial services. It includes an illustration of a person at a computer with a checklist. Below the illustration, it states that MPRP manages authors, reviewers, and editors, and is an in-house product of Innovative Publication Pvt. Ltd. The section 'Why MPRP?' begins with the text: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

**CONTENTS****Original Article:****Recent Advances on Pediatric Ventilation 280-286***Rakesh Jora, Monika Choudhary***Comparison of ultrasound-guided and electrical nerve stimulation techniques for interscalene brachial plexus block in patients undergoing clavicle surgeries: A randomized clinical study 287-290***Vasantha Kumar KR, Aditi Prabhu, Bhavya P, Tasneem Kauser, Karna Venkata Siva***Combination of buprenorphine with hyperbaric bupivacaine administered either as a mixture or sequentially for spinal anaesthesia for caesarean section 291-297***Archana Shivashankar, Prapti Rath, Sadashivan S. Iyer, CVR Mohan***Comparison of intrathecal levobupivacaine and levobupivacaine with fentanyl in caesarean section - a randomised trial 298-303***Selvakumar Rajasekaran, Suresh Murugaiah, Asha Anandan, Ayshvarya Ramalingam***A prospective, randomised, double blind controlled comparative study of antiemetic effects of ramosetron and dexamethasone with ondansetron and dexamethasone combination for prevention of post operati 304-309***Deepa Palax Kattishettar, Vijayalakshmi Beladakere Channaiah***A prospective randomized double-blind controlled trial on evaluating the Efficacy of Inj.Metoprolol 50µg/Kg. I.V., in attenuating the hemodynamic response to laryngoscopy, intubation and carbon diox 310-315***NV Madhavakrishna, A. Niranjana Kumar, S. Mahalakshmi, VJ Karthik***A randomized controlled study of intraperitoneal vs intraincisional infiltration of local anesthetic levobupivacaine for pain relief in post-laparoscopic hysterectomy cases 316-319***Gopal Reddy Narra, Manohar, Aiswarya, Amit Kumar, Monica Krishna***Comparing efficacy of epidural dexamethasone versus fentanyl on post operative analgesia " a double blinded randomized study 320-323***K. Senthil Kumar, J. Suresh, T. Murugan***Comparison of 5µg and 10 µg of Dexmedetomidine as an adjuvant with Bupivacaine (heavy) under Spinal anaesthesia in Urological surgeries 324-328***Mahadeva Prasad DR, Anitha Hanji S, Narasimha Gnani BC***The conscious sedation is a fast and safe option to perform intracavitary brachytherapy in carcinoma cervix patients: An institutional experience 329-332***Narendra Rathore, Lalit Raigar, Arvind K. Shukla, Abhay K. Jain, Vikram Raj Purohit***Effect of addition of clonidine to bupivacaine or ropivacaine on caudal efficacy and effectiveness**

**in pediatric patients undergoing infraumbilical surgery 333-337**

*Pankaj Sarangal, Chiteshwar Walia, Ruchi Gupta, Anita Kumari, KS Aujla*

**A study to observe the effects of addition of magnesium sulphate as an adjuvant to 0.5% bupivacaine for intrathecal anesthesia in surgeries of lower limbs 338-344**

*Prabhavathi R, G. Anand ISAAC, P. Narasimha Reddy, P. Umanageshwarah*

**Comparison of hemodynamic and serum cortisol levels in response to anesthetic induction with Etomidate or Propofol in patients undergoing CABG surgery 345-351**

*Reema Meena, Ravi Shankar Sharma, Pinu Ranawat, Anjum Saiyed, Indu Verma*

**A comparison of intrathecal Dexmedetomidine and Buprenorphine as an adjuvants to isobaric spinal 0.75% Ropivacaine in patients undergoing elective lower limb surgery 352-357**

*Shruthijayaram, Bhagyashree Amingad*

**Spinal and Epidural anaesthesia for Caesarean section in severe preeclampsia – a comparative prospective randomized study 358-362**

*Bindu Meleveetil, Ushakumary Raghunathan, Radha Korumbil Raghavan*

**Comparative study of gasman software with conventional dial setting for depth of anaesthesia using bis monitor in laparoscopic cholecystectomy 363-367**

*Sarala C. Baria, Venkatraman V, Kamla Mehta, Kirti Patel*

**A randomised prospective study on the effect of intramuscular lignocaine and bupivacaine on induction dose of thiopentone sodium 368-374**

*Vinayak Seenappa Pujari, Yatish Bevinaguddaiah*

**Comparison of epidural bupivacaine-fentanyl and ropivacaine-fentanyl for postoperative analgesia in major abdominal surgeries - a prospective, randomised study 375-381**

*Anurag Yadava, Chandan K. Jaiswal*

**Low flow anaesthesia: economic, eco friendly and effective 382-387**

*VC Shelgaonkar, Annu Choudhary*

**Ultrasound versus nerve stimulation technique for interscalene brachial plexus block: A randomized controlled trial 388-392**

*Kavita Udaykumar Adate, Kalyani Nilesh Patil, Adnan Qamar Ali Sarkar*

**Dexmedetomidine as an adjunct to anaesthetic induction to attenuate haemodynamic responses to Endotracheal Intubation 393-399**

*Om Prakash Sanjeev, Prakash Kumar Dubey, Neeraj Kumar, Shashi Kant, Amitesh Pathak*

**Comparison of two supraglottic airways - I-gel and Proseal laryngeal mask airway for ease of insertion and hemodynamic stability 400-405**

*Pratibha SD, Vidya Patil, Basvaraj Patil, Vijaya Sorganvi*

**Difficult Intubation: Prospective observational study to evaluate it's key predictors 406-411**

*Urvi H. Desai, Devendra W. Thakare, Amala G. Kudalkar*

**Case Report:**

---

**Pediatric septic arthritis with pericardial and pleural effusions for emergency drainage - Case Report 412-415**

*Bhavna Kakkar, Nishtha Kachru, Mallika Boishya, Lalit Gupta*

**Role of nitroglycerine as tocolytic agent during double valve replacement surgery in pregnant patient with successful fetal outcome 416-418**

*Hariom Khandelwal, Kunal Singh, Shikha Agarwal, Ashutosh Singh*

### Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24\*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of Innovative Publication Pvt. Ltd. which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

### Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
