The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header includes the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, editor@iesrf.in' and 'Support: +91-11-6336414, 6336415 | 9850426446 | 9850426447'. A navigation menu contains: 'About MPRP', 'Journals', 'Support and Training', 'Contact us', 'Track article status', 'Register', and 'Login'. The main content area features the title 'Manuscript Peer-Review Process' and a detailed description of the service, highlighting its 24/7 availability, editorial services, and integration with social and professional networks. An illustration shows a person at a desk with a laptop, surrounded by icons representing various aspects of the review process. A small 'IJCA' logo is visible in the bottom right corner of the screenshot.

Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd. which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your

CONTENTS**Original Article:****Low dose oral clonidine as premedication in laparoscopic surgery 419-423***C.B. Sridhar, Sulfiqdeen K***Effect of propofol & sevoflurane on jugular bulb oxygen saturation in patients undergoing brain tumor surgery 424-427***Manoj Kumar Giri, BK Rao, Aman Ohri, LS Mishra***Effect of Intravenous Dexmedetomidine on Bupivacaine for Spinal Anaesthesia 428-434***Olvyna Dâ€™Souza, Amarjeet Dnyandeo Patil, Nitin Kapoor***Need of pharmacotherapy to prevent hemodynamic effects after subarachnoid block: A prospective randomized double blind placebo controlled study 435-440***Basappa M. Diwanmal, Jyotsna Paranjpe, Vikas Kumar, K. Sri Hyndavi***Comparison of Efficacy and Safety of 0.5% Bupivacaine and 0.5% Ropivacaine for Combined Femoral Nerve Block and Sciatic Nerve Block (Anterior Approach): A randomized controlled trial 441-446***G. Dilish, P. Aravind Kumar, J. Radhika***Comparative evaluation of induction characteristics of Propofol and Etomidate during general anaesthesia 447-452***Geeta Karki, Vishwadeep Singh***A study to evaluate efficacy and safety of dexmedetomidine (1 Âµg/Kg) as an adjuvant to caudal ropivacaine (0.25%1 MI/Kg) in paediatric infraumbilical surgeries 453-458***G. Anand Isaac, Prabhavathi R, P. Narasimha Reddy, J. Suresh***Epidural 0.5% Bupivacaine and 0.5% Levobupivacaine in Lower Limb Surgeries with respect to Block characteristics 459-462***Juhi Saran, Priyank Srivastava, Geeta Singh***A study of the effect of caudal epidural neostigmine for post operative pain relief in children undergoing lower abdominal surgery 463-468***Kannan Santhanakrishnan, VS Senthil Kumar***A comparative study of palonosetron and ondansetron in prevention of post operative nausea and vomiting in laparoscopic cholecystectomy surgery 469-471***Manish Khandelwal, Amit Kulshrestha, Priyanka Saini, Meenaxi Sharma***A comparison of two different doses of sildenafil in pulmonary arterial hypertension – a prospective randomised controlled study 472-475***Rahul Mamde, Manjula Sarkar***A randomized double blind comparative study on onset time and intubating conditions achieved with succinylcholine 1.5mg/kg and Rocuronium 0.6mg/kg & 0.9mg/kg IV 476-479***S. Mahalakshmi, VJ Karthik, NV Madhava Krishna, A. Niranjana Kumar*

A clinical evaluation of the I gel and Air Q as conduits for blind tracheal intubation in adult patients 480-483

Salim Al-Brashdi, Rashid Khan, Naresh Kaul

Nalbuphine and pentazocine in opioid benzodiazepine sedative technique in ear surgery under local anaesthesia –a double blind comparison 484-488

Sandipbhai Jivanbhai Patel, Rajesh Dyanoba Subhedar

Comparative study of caudal Ropivacaine with ropivacaine & Ketamine for postoperative analgesia in paediatric patients 489-493

Selvakumaran P, Sankita Kulkarni, Vasanti Kelkar

Effect of minimal cuff inflation with thermo softening of the endotracheal tube to minimize the trauma during naso tracheal intubation – observational study 494-497

Senthil Kumar VS

A prospective randomized double blind comparative study of 0.5% ropivacaine and 0.5% bupivacaine in brachial plexus block with supraclavicular approach in upper limb surgeries using peripheral nerve 1 498-502

Shalaka S. Nellore, Devangi A. Parikh

Comparison of Oxytocin 3IU Bolus + I.V. Infusion Of 30IU at the Rate of 125 ml/Hr.(0.125 IU/Min.) and oxytocin I.V. infusion at 0.125 IU/Min only, in maintaining uterine tone and hemodynamic stability 503-507

Venkatesh Murthy KT, Rupakala BM, Sangeetha C, Asha G, Maya D. Nadakarni

Comparison of classic laryngeal mask airway with nasogastric tube versus proseal laryngeal mask airway in adults undergoing laparoscopic cholecystectomy 508-511

Shashi Prakash, Yashpal Singh, Anil K. Paswan, Rajesh Meena, Sandeep Loha, Arvind Bhalckar

A comparative study to evaluate the effectiveness of timing principle and priming principle for tracheal intubation using rocuronium 512-517

M. Kamalakannan, P. Sunder

Median and paramedian approach for spinal anaesthesia for caesarean delivery: A comparative analysis of safety and effectiveness 518-522

Manisha Kanagarajan, Vanishree C, Gomathy Jeeva

Palonosetron-dexamethasone versus ondansetron-dexamethasone to prevent postoperative nausea and vomiting undergoing laparoscopic sleeve gastrectomy: a preliminary, randomized, double blinded study 523-529

Narender Kalaria, Indu Mohini Sen, Vikas Saini, Rajesh Gupta, Rama Walia

Effect of electrocautery maze procedure and amiodarone in rheumatic valvular heart disease patients with atrial fibrillation undergoing mitral valve replacement surgery 530-535

Ketaki Ramteke, Yogesh Zanwar, Amol Thakare, Gagan Agrawal, Vijay Shrotey

Case Report:

C-MAC D-blade laryngoscope: A saviour for difficult intubation in lateral position 536-538

Mamta Dubey, Nitesh Goel, Itee Choudhary, Lalit Gupta

Hip replacement in a patient of sickle cell disease: an anaesthetic challenge 539-541

Nitin Choudhary, Abhijit Kumar, Sonia Wadhawan, Poonam Bhadoria, Amit

Kohli
