## Indian Journal of Clinical Anaesthesia

Volume - 5, Issue - 2, Year - 2018 ([www.ijca.in](http://www.ijca.in))

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

### Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

### Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2024-12-10**.

The advertisement is a screenshot of a website for 'Manuscript Peer-Review Process'. The header is dark red with the logo on the left and contact information on the right. A navigation bar below the header contains links: 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area has a light blue background. On the left, there is a text block titled 'Manuscript Peer-Review Process' describing the service. On the right, there is an illustration of a person at a desk with a laptop, surrounded by icons representing various aspects of the process. At the bottom, there is a section titled 'Why MPRP?' with a small introductory sentence.

**Manuscript Peer-Review Process**

Manuscript Peer-Review Process is a web-based portal that can be accessed 24/7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

**Why MPRP?**

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your

**CONTENTS****Original Article:**

**Comparative study of higher volume lower concentration and lower volume higher concentration levobupivacaine in paediatric caudal block for postoperative pain relief in infraumbilical day care surgeries: Randomized observer blinded study 165-169**

*Shilpa Masur, Anilkumar Ganeshnavar, Preetika Hiremath, Dinesh Naik*

**Low dose ketamine pretreatment for alleviation of propofol injection pain- A study 170-174**

*Yamini Taloh, Nongthombam Ratan Singh, Mumtak Borang, Praneshwari Sinam, J. F. Pyngrope*

**Assessment of efficacy of intravenous fentanyl citrate for attenuation of hemodynamic responses during laryngoscopy and endotracheal intubation 175-181**

*Anuradha Suryaprakash Karande, Sangeeta Shrikant Page*

**A randomised comparative study on intraoperative bispectral index monitoring vs. conventional monitoring on awakening time, extubation time and early postoperative recovery from general anaesthesia using desflurane as inhalational anaesthetic during maintenance of anaesthesia in morbidly obese patients undergoing laparoscopic sleeve gastrectomy surgery 182-184**

*Krishna Murthy TK., Vinay Kumar PV.*

**Efficacy of risk score dependent antiemetic regimens in reduction of post operative nausea and vomiting 185-189**

*Renuka R., Radhika D. Dhandal*

**A prospective study on the effectiveness of intermittent ventilation of non-dependent lung in combating hypoxia during one lung ventilation 190-194**

*Sujith Alexander Kurian, Jayakumar P*

**Comparative study between oral midazolam and oral ketamine as preanaesthetic medication in paediatric patients undergoing elective surgery: a randomized double blind study 195-198**

*Hachio William M. Yanthan, Tridip Jyoti Borah, Subrata Pahari, Tirtha Ratan Ghosh, Jaideep Sonowal*

**Comparison of effect of Labetalol and fentanyl with only fentanyl for attenuating pressure responses to intubation and skull pin insertion in neurosurgery 199-204**

*Leena P. Patel, Jenish C. Patel, Keval P. Patel, Chirag S. Rathva, Vijeta Tandel*

**Comparison of haemodynamic response to laryngoscopy and endotracheal intubation following induction of general anaesthesia with propofol or etomidate 205-209**

*Devaraj I. C., Manjunath Timmappa Bhat, Shrirang V. Torgal*

**Comparison between dexmedetomidine and propofol for sedation during mechanically ventilated patients after major intraabdominal surgeries: An observational study 210-215**

*Neeraj Kumar, Amarjeet Kumar, Ashish Kumar, Mumtaz Hussain, Anil Kumar*

**Ease of ProSeal laryngeal mask airway insertion in children (after placement) using suction catheter: A comparison with conventional techniques 216-221**

*Lalit Gupta, Bhavna Gupta, Poonam Bhadoria, U. C. Verma*

**Lateral approach versus conventional approach supraclavicular block for forearm surgeries. A prospective randomized controlled study 222-227**

*Amit Vadhel, Devyani Desai, M R Upadhyay*

**Intrathecal midazolam for prevention of nausea and vomiting during and after cesarean section under spinal anaesthesia 228-232**

*Amol Singam, Arpita Jaiswal, Rashmi Deshpande Tapan Dhumey*

**Comparison of intraoperative bleeding and surgical fields with and without tranexamic acid in Functional endoscopic sinus surgery 233-236**

*Dhanashree H. Dongare, Girish Y. Saundattikar*

**A clinical comparative study of 0.2% levobupivacaine with 25 mcg fentanyl versus 0.2% ropivacaine with 25 mcg fentanyl for post-operative epidural analgesia in patients undergoing lower limb orthopaedic surgeries 237-243**

*Sudarshan M. Boregowda, Basavanna P. Linganna, Santosh K. Raju*

**A comparative study between clonidine and dexmedetomidine in attenuation of pressor response during endotracheal intubation 244-248**

*Ganesh Nikam, Madhukrishna N.*

**Oral premedication in children: Comparison of combination of midazolam-ketamine and oral midazolam- A Randomised trial 249-254**

*Chiteshwar Walia, Pankaj, Manjunath Prabhu, Daniel Thomas*

**Postoperative analgesia with epidural butorphanol or tramadol in lower abdominal surgeries- A double blind comparative study 255-260**

*Aparna Abhijit Bagle, Priyanka Gulia, Sneha Sheelvanth, Anagha Patil, Tripti Nagdev*

**Oral premedication in children: A randomized study of a combination of oral midazolam, ketamine with atropine vs midazolam and atropine vs ketamine and atropine 261-265**

*Ranjan Ramakrishna, Hemanth KJ, Sunil BV, Neeta S, Sonal Bhat*

**Saddle block spinal anesthesia and its effect on hemodynamic status and analgesia 266-271**

*Neeta S., Sunil B. V., Sonal Bhat, Shaila Kamath, Madhusudan U.*

**Attenuation of hypertensive response with esmolol and labetalol in low doses in orotracheal intubation: A comparative study 272-276**

*Suruchi Ambasta, Swagat Mahapatra*

**A comparative study of sevoflurane induction using continuous tidal volume breaths versus three vital capacity breaths technique in adult patients undergoing elective surgical procedures under general anaesthesia 277-281**

*Yogesh Kumar Manik, Vipin Kumar Dhama, Subhash, Navab Singh, Sudhir Kumar*

**Comparison of laryngoscopy and intubating conditions using kings vision laryngoscope and C-MAC video laryngoscope 282-286**

*Sarika M. Shetty, Vyshnavi S., Dharanindra M., Archana KN*

**Case Report:**

---

**Role of Dexmedetomidine in anesthetic management of lower limb orthopaedic surgery in a patient with low ejection fraction 287-288**

*Kriti Nagar, Shirin Parveen*

**Broken epidural catheter: What next to do? 289-291**

*Urmila Palaria, Arpita Das, Charul Jakhund*

**Manufacturing defect in endotracheal tube- An airway challenge 292-293**

*Pankaj Kumar Gupta, Neha Shrivastava*

**Thoracic epidural anaesthesia - A promising alternative for a patient with difficult airway 294-296**

*Charuta Gadkari, Priyanka Pravin Deshmukh, Megha Tajne, Ankush Wasnik*

**Prader willi syndrome- A case report 297-298**

*Shilpa H. L., Shwetha Odeyar S., Adarsh E. S.*
