The advertisement is a screenshot of a website for 'Manuscript Peer-Review Process'. The header is dark red with the logo on the left and contact information on the right. A navigation bar below the header contains links: 'About MPRP', 'Journals', 'Support and Training', 'Contact us', 'Track article status', 'Register', and 'Login'. The main content area has a light blue background. On the left, there is a text block titled 'Manuscript Peer-Review Process' describing the service. On the right, there is an illustration of a person at a desk with a laptop, surrounded by icons representing various aspects of the process. At the bottom, there is a section titled 'Why MPRP?' with a short paragraph.

Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your

CONTENTS**Review Article:****Anesthesia for neurosurgery (Part II) 299-305***Lalit Gupta, Bhavna Gupta***Checklist: A key to safety 306-310***Harpreet Kaur, Veena Shukla, Ranjana Khetarpal, Magila Muthuramalinga Pandian***Anaesthetic implications during off-pump coronary artery bypass surgery 311-314***Manjula Sarkar, Vishal Prabhu***Original Article:****Intranasal dexmedetomidine vs intranasal midazolam for premedication in paediatric patients undergoing surgery under general anaesthesia 315-320***Josemine Davis, Thaneshwar Rijal, Amit Rai***Prospective randomized double blinded comparative study on the effects of ephedrine and phenylephrine on fetal outcome and their effects on hypotension during elective cesarean section 321-326***R. Anitha Preethi, A. Pushparani***A prospective study comparing the efficacy of intravenous clonidine with intravenous dexmedetomidine in attenuating the haemodynamic stress response during laryngoscopy and endotracheal intubation 327-333***Chhaya M Suryawanshi, Rajan Kumar, Rachna Wadhwa***Comparison of intraocular pressure and hemodynamic responses to insertion of laryngeal mask airway or endotracheal tube in elective paediatric ophthalmic procedures 334-340***Swetha Ramani, Radha Krishnan, Kala Balasubramaniam, Brinda, Pushparani***Comparative study of dexamethasone nebulisation with magnesium sulphate nebulisation in preventing post operative sore throat following endotracheal intubation 341-347***Ashwini H, Seema Kumari K, Lavanya R***Comparison between palonosetron and ramosetron to prevent postoperative nausea and vomiting in patients undergoing laparoscopic surgery 348-353***Patel Vaibhavi B, Patel Kiran B, Mehta Vikram P, Agarwal Sameermohan, Patel Hardik G***A comparative study of efficacy and safety of oral ketamine and oral midazolam as premedicant for paediatric cardiac catheterization 354-360***Soma Ganesh Raja, Gowri Shankar Sarate***Bispectral index analysis in general anesthesia: An observational study 361-367***G V Rao, Kiran Chand N, A. Srinivasa Murthy, Balabhaskar S*

Effect of oral low dose pregabalin on succinylcholine induced fasciculations and myalgia -A prospective randomized double blind placebo-controlled study 368-372

Rashmi H D, Hanumanthappa V. Airani

Optimal dose of methylprednisolone for reduction of propofol injection pain: A randomized, double-blind, placebo controlled study 373-377

Dipali Singh, Syed Mudassar, Shivprakash Shivanna, Sathyanarayan J, Shio Priye

The effect of nutritional protocols on mechanically ventilated patients in intensive care unit: A randomised controlled study 378-382

Shipra Singh, Suruchi Ambasta

Ketamine- Propofol or Fentanyl- Propofol intravenous infusion a better combination for short surgical procedures in paediatric patients, a comparative study 383-388

Anandkumar Pande, Shital Mahendra Kuttarmare

Bispectral index monitoring during total intravenous anaesthesia: A comparative study between two dosage regimes of propofol 389-393

B Sanjeev Kumar, Pratheeba N, Remadevi R, Ravindra Bhat R, Senthilnathan M

Comparison of I-gel and Proseal LMA for airway management in pediatric patients under controlled ventilation - A prospective, randomized, single blind clinical study 394-398

Raksha Patel, Mamta Patel, M.R. Upadhyay

A randomized clinical trial to compare the effectiveness of two different doses of intravenous Nitroglycerine for manual removal of placenta 399-402

Shivanand L. Karigar, D.G. Talikoti, Basavaraj Patil

Comparison of three different concentrations of epidural ropivacaine (0.05%, 0.1% & 0.2%) for labor analgesia: A prospective randomized and double blind study 403-406

Hariom Khandelwal, Kunal Singh, Shikha Agarwal, Ashutosh Singh, Prithwis Bhattacharya

The effects of epidural analgesia in normal labor 407-414

Pradeep Hosagoudar, K R Vimala, Uday Bhaskar, Vallur Swetha Reddy, L Krishna

A prospective randomized double blind study to compare the effects of dexmedetomidine and fentanyl on intubating conditions during awake fiberoptic bronchoscopy guided intubation 415-422

Veena Patodi, Bhawesh Upreti, Surendra K. Sethi, Neena Jain, Satveer S. Gurjar

Effects of intravenous dexmedetomidine on 0.5% hyperbaric bupivacaine spinal anesthesia - a placebo controlled randomized trial 423-430

Ruma Thakuria, Tridip Jyoti Borah, Jaideep Sonowal, Dipika Choudhury

Comparison of clinical performance of laryngeal mask airway supreme™ and I-gel™ in patients undergoing elective non-laparoscopic surgeries 431-436

Smita Gogia, Ishwar Singh, Monica Gupta

Comparison of motor blockade, sensory blockade and duration of analgesia between dexmedetomidine and dexamethasone as an adjuvant to bupivacaine in axillary block 437-439

Gunaseelan S, Arun Kumar. J

Comparison of catheterization of internal jugular vein by ultrasound guided versus landmark approach IN I.C.U. patients 440-444

Swati Choraria, Nitin Choudhary, Harish C. Sachdeva, Sushil Guria

Safety and efficacy of multiple site thoracic paravertebral nerve block vs. modified pectoral nerve block for postoperative analgesia after modified radical mastectomies-a randomised controlled trial 445-450

Viji S. Pillai, Bhagyalakshmi Ramesh, Silvy Anna Varughese

Case Report:

Osteopetrosis - How much do we know? 451-452

Alka Chandra, Naresh Chandra, Nikhil Bhasin, Parul Bansal Sareen

Retrosternal goitre: Anaesthetic implications and management 453-456

*Nitin Choudhary, Abhijit Kumar, Sonia Wadhawan, Poonam Bhadoria,
Vishnu Panwar*

Intra operative temporomandibular joint dislocation during use of proseal LMA 457-458

Zameer Farooq, Neha Gupta, Farah Nabi

Short Communication:

Sepsis- An unusual post tonsillectomy complication 459-460

Rashmi Patil, Madhuri Kurdi
