

IJCA

Indian Journal of Clinical Anaesthesia

Volume - 5, Issue - 4, Year - 2018 (www.ijca.in)

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2025-02-06**.

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, editor@ijca.in', 'Support: +91-11-6336414, 6336415 | 9850425146 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and contains the following text: 'Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels. MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals. Why MPRP? If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'. An illustration shows a person at a desk with a laptop, surrounded by icons representing various journal services. The IESRF logo is in the bottom right corner.

CONTENTS**Original Article:**

A study to evaluate comparative efficacy of two different venous occlusion duration on pretreatment with Inj. lignocaine to prevent propofol Inj. pain in patients undergoing surgery under general anaesthesia 461-464

Atlanta Talukdar, Sara Mary Thomas, Akhilesh Chhaya, Dinesh K Chauhan

Mechanical ventilation in trauma-the first 24 hours: A retrospective analysis 465-468

Rakesh Kumar, Amit Sharma, U Naga Satish

Thoracic epidural block - A sole anesthetic procedure for breast surgeries 469-472

Durga Shankar Patel, Omprakash Sundrani, Sanjay Goyal, A. M. Lakara

Evaluation of safety and efficacy with propofol and etomidate for induction of Anaesthesia in dilatation and curettage 473-478

Seema Meena, Archana Tripathi, Mukesh Somvanshi, Surendra Kumar

Anaesthetic management of endobronchial ultrasound guided trans bronchial needle aspiration: Our experience with laryngeal mask airway 479-485

Arpana Kedlaya, Rashmi Rani, Uma Devaraj, Priya Ramachandran, Uma Maheshwari

Attenuation of pressor response to laryngoscopy and intubation: Dexmedetomidine Vs. fentanyl premedication 486-490

Lalit Kumar Raiger, Gokulakrishnan L, Madhan Chandramohan, Apoorva Aseri, Ravindra Kumar Gehlot

Comparing the ease of identifying the subarachnoid space at midline of L3 -L4 interspace by preprocedural ultrasound versus landmark technique - A randomized control study 491-495

Bhavani Vaidiyanathan, Sangeeta Dhanger, Joseph Raajesh I

Effect of intraoperative iv dexmedetomidine on emergence agitation after sevoflurane anaesthesia in children undergoing tonsillectomy with or without adenoidectomy 496-500

Veena Mathur, Pooran Chand Trivedi, Deepak Kumar Garg, Arvind Khare, Surendra Sethi

Study of addition of fentanyl to bupivacaine in subarachnoid block administered for cemented bipolar prosthesis in geriatric patients population 501-504

Sarita Gohiya, Vineet Kumar Gohiya, Nisha Singh

A randomized controlled parallel study of nalbuphine and fentanyl on hemodynamic response to laryngoscopic and laparoscopic stress in patients undergoing laparoscopic appendectomy under general anaesthesia 505-511

Madhu S, Balarama Reddy P, Vikas P Savdi, Ramadas K T

A prospective randomized comparison between perivascular and perineural ultrasound guided axillary brachial plexus block for upper limb surgeries 512-517

Padmini, Sevagamoorthy, Rajaprabhu

A prospective, randomized, double blind, systemic controlled trial to compare analgesic efficacy of clonidine and fentanyl in supraclavicular block with 0.75% ropivacaine 518-522

Muni Ram Meena, Hemraj Tungria, Garima Tyagi, Anisha Banu, Lalit Kumar Raiger

Comparison of different methods of general anaesthesia for controlled hypotension in functional endoscopic sinus surgery (FESS) 523-528

Jigisha B Mehta, Vandana Parmar, Vrinda Oza

Comparison of oxygenation and ventilation parameters between proseal laryngeal mask airway and endotracheal tube in patients undergoing laparoscopic surgeries: a prospective observational study 529-537

Deepak Devendran, Karthik Jain M, Vasudeva Upadhyaya K.S

Efficacy of orally disintegrating film vs intravenous ondansetron in preventing postoperative nausea and vomiting in middle ear surgeries under general anaesthesia 538-542

Shilpa Acharya, Kavita Adate

Comparison of channelled vs unchannelled video laryngoscope- A prospective randomised trial 543-548

Shibani Padhy, Kavitha Jayaram, Sindhuja, Priyanka

Comparison of isobaric levobupivacaine versus hyperbaric bupivacaine in spinal anaesthesia for cesarean section: A prospective randomized case control study 549-555

Madhanmohan C, Udita Naithani, Megha Gupta, Virendra Verma, Pankaj Damor

Efficacy of continuous femoral three-in-one nerve block using stimulating nerve catheter and non stimulating nerve catheter for postoperative analgesia in surgeries over thigh: a comparative study 556-560

Alpa Patel, Nitin Choudhary, Utpala Kharod, Vikas

Comparison of administration of intraperitoneal bupivacaine and intraperitoneal bupivacaine with dexmedetomidine in post laparoscopic cholecystectomy patients for post operative pain relief 561-565

Chetan Shukla, Raksha Kumari Bairwa

Comparison of dose requirement of propofol with and without bispectral monitoring in patients undergoing spinal epidural anaesthesia: An institutional based study 566-568

Ratan Pal Singh, Megha Arora

A comparative study of laryngeal view and pressor response by using three different blades- Macintosh, miller and Mccoy laryngoscopes 569-575

Gaurav Dwivedi, Lalit Gupta

Baska mask®-A third generation supraglottic airway device in clinical practice- A prospective observational study 576-581

Anil Kumar M R, Sarika M Shetty, Meghana Marulasidappa, Prashanth Parmar, Vyshnavi S

Effect of dexmedetomidine infusion on stress induced blood glucose levels and intraoperative sevoflurane requirement 582-590

Yasha V Kameshwar, M R Upadhyay

Intraoperative sedation during regional anaesthesia (Caudal epidural anaesthesia) in paediatric patients: Role of intravenous dexmedetomidine 591-595

*Yogendra Singhal, Udit Naithani, Seema Partani, Lalit Kumar Raiger,
Vikram Bedi*

Prospective randomized controlled study to compare the postoperative analgesic efficacy of intravenous dexmedetomidine and pethidine on patients undergoing lumbosacral spine surgeries 596-602

S Sindhuja

Comparison of orotracheal versus nasotracheal fiberoptic intubation in simulated cervical spine patients, under conscious sedation 603-608

Tarang Jain, Lalit Gupta, Manoj Bhardwaj

Increasing fresh gas flows of oxygen in a circle absorber system for preoxygenation. Is it really efficacious? 609-613

Madhavi Sanjay Chaudhari, Piyush Bansal, Birva Khara

A randomized controlled double blind study comparing the efficacy of epidural ropivacaine and bupivacaine with fentanyl for labor analgesia 614-619

Rakhee .S, Shalini Miriam Ipe, Saramma P. Abraham, Shaloo Ipe, Sam Philip

Impact of the various factors on survival of tracheoesophageal fistula patients: A prospective study of 16 patients 620-624

Shailendra Pareek, Lalit Kumar Raiger, Yogendra Singhal

Case Report:

Post intubation high airway pressure's: An uncommon case of kinked tube 625-626

Karen Ruby Lionel, Ajay Prasad Hrishi

Flip-flop circulation: An unusual cause and case of neonatal desaturation 627-628

Lalit Gupta, Tarang Jain
