

IJCA

Indian Journal of Clinical Anaesthesia

Volume - 6, Issue - 1, Year - 2019 (www.ijca.in)

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2025-01-15**.

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@iesrf.in, iesrf@iesrf.in' and 'Support: +91-11-639414, 639415 | 9850426146 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and contains the following text: 'Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels. MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals. Why MPRP? If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'. An illustration shows a person at a desk with a laptop, surrounded by icons representing various aspects of the peer-review process like 'Quality of content', 'Editorial workflow', and 'Post-publication services'. The IESRF logo is visible in the bottom right corner.

CONTENTS**Null:****Perioperative medication errors-are these avoidable?***Pallavi Ahluwalia***Cardiac anesthesia as super-specialty: Need of the hour! 3-5***Manjula Sarkar***Scalp block with bupivacaine and ropivacaine for attenuation of haemodynamic response to head pinning in neurosurgical patients: An observational study 6-10***Deepak Singh, Rashmi Thakur, Rashmi Naik, Vivek Mangal***Clinical evaluation of dexmedetomidine on haemodynamic stress response during laryngoscopy and intubation: A randomized double blind parallel group placebo controlled study 11-18***Komal Shah, Chandrika Bhut, Naveen Gaukr***A comparative, randomized clinical study of haemodynamic response to laryngoscopy and tracheal intubation using vecuronium with and without neuromuscular monitoring by peripheral nerve stimulator 19-22***Rakesh Alur T, Anupama MK, Prakash HK***Effect of dexmedetomidine on hemodynamic responses during tracheal extubation 23-29***Meenal Agarwal, Anuradha Malliwal***Foreign body aspirations in children: A retrospective analysis in a tertiary care paediatric hospital 30-33***Sheetal K, Sandhya Ghodke***Bispectral index (BIS) guided comparison of ketamine-propofol or fentanyl-propofol combinations when used in day care urological surgeries 34-39***Shikha Soni, U D Sharma, Monika Gupta, Rakesh Karnawat, Shaitan Singh***Attenuation of haemodynamic responses of laryngoscopy and endotracheal intubation: An evaluation of efficacy of single intravenous dose of esmolol hydrochloride 40-46***Satyendra Yadav, R S Verma***Effects of preoperative single bolus dose of dexmedetomidine on perioperative hemodynamics in elective laparoscopic cholecystectomy 47-54***P Indira, Rajola Raghu, A. Swetha***A study of anaesthetic management of cleft lip and palate surgery in children 55-58***Nipa N. Desai, Jayshri P Prajapati***A comparative evaluation of equipotent doses of isobaric Levobupivacaine and Ropivacaine with neuraxial adjuvant Fentanyl for lower abdominal and lower extremity surgery 59-65***Pramila Soni, Lalit Mohan Sharma, Hemraj Tungria, Yudhyavir Singh***Comparison of sequential combined spinal epidural anaesthesia and spinal anaesthesia in lower limb surgery: A prospective randomised double blind study 66-70**

*Shah Akif Mutahar, Santpur Madhavi, Santpur Unmesh, Kanchan Swati,
Agarwal Somika*

A randomised control study comparing the efficacy of 2 techniques of preoxygenation - tidal volume breathing for one minute and 8 deep breaths in one minute 71-76

Lavanya Kaparti, Chandra Sekhar T, Padmaja R

50% magnesium sulphate versus 2% lignocaine for amelioration of pain on injection of propofol - A single blind study 77-80

Triveni Bedradi Venugopal, Milon Vasant Mitragotri, Gopalakrishna K

A prospective randomised double blind clinical study comparing ropivacaine and fentanyl with bupivacaine and fentanyl for labour epidural analgesia 81-88

*Apoorva Gupta, Manasa Dhananjaya, Nagaraja PS, Naveen G Singh,
Nanjappa SN*

A comparison of intrathecal dexmedetomidine and fentanyl as an adjuvant to isobaric levobupivacaine for lower limb orthopaedic surgery 89-96

Anjali Bhure, Nikita Jagtap

Effect of intravenous dexmedetomidine on duration of spinal anaesthesia with hyperbaric bupivacaine - A comparative study 97-101

Tobu Verghese, Nischala Dixit, Latha John, Robin George, Shraddha Gopal

Comparison of ondansetron HCl, granisetron HCl and palonosetron HCl for prevention of postoperative nausea and vomiting following gynaecological surgery under general anaesthesia 102-106

*Nita D Gosai, Rekha N Solanki, Bhavna C Shah, Pooja Kumar, Rajdip
Kubavat*

A comparative study of hyperbaric ropivacaine with fentanyl and hyperbaric bupivacaine with fentanyl in intrathecal block for perineal surgeries: A prospective randomized double blind clinical study 107-111

Ramesh Koppal, Archana Endigeri, Rudresh Pattanashetti, S Y Hulakund

A randomized prospective study comparing characteristics of Desflurane with Isoflurane under low flow anaesthesia using equilibration time 112-117

Nidhi Gupta, Reetu Verma, V.K. Bhatia, Sateesh Verma, Chetna

Comparative evaluation of recovery after desflurane or sevoflurane anaesthesia 118-121

Richa Gupta, Mittal Patel, Harsha Patel

Effect of dexmedetomidine added to caudal ropivacaine for infra-umbilical surgery in children 122-128

Shalini Miriam Ipe, Rakhee S, Saramma Abraham, Shaloo Ipe, Sam Philip

A study to compare using 0.5% of hyperbaric bupivacaine with clonidine and dexmedetomidine low dose for the lower limb surgeries in a tertiary care hospital 129-133

Ezhil Rajan, Ranjith Kumar S

Comparison of low dose dexmedetomidine and clonidine as additives to bupivacaine in ultrasound directed supraclavicular blocks 134-139

Spurthi, Bindu George, Jui Lagoo

Comparison of airway assessment by Mallampati classification and cormack and lehane grading in Indian population 140-142

*Ramapati Sanyal, Subrata Ray, Prithviraj Chakraverty, Mukul Kanti
Bhattacharya*

Comparative efficacy of butorphanol versus nalbuphine for balanced anaesthesia and post-operative analgesia in patients undergoing laparoscopic surgery 143-147

Vidhya N, Prakash V, Irshad B, V. S. Senthil Kumar

Effect of single-dose magnesium sulfate on total postoperative analgesic requirement in patients receiving balanced general anesthesia- A prospective, randomized, placebo controlled study 148-151

Vinod Kumar Verma, Arvind Kumar, Chandrakant Prasad, Mumtaz Hussain

Neck circumference to thyromental distance ratio: Is a reliable predictor of difficult intubation in obese patients? 152-156

Vrishali R. Ankalwar, Manish Patel, Naresh G. Tirpude

A comparison of the effectiveness of dexmedetomidine versus propofol-fentanyl combination for sedation during awake fiberoptic nasotracheal intubation 157-164

Radha Mariyappa, Yatish Bevinaguddaiah, Sadasivan S Iyer
