## Indian Journal of Clinical Anaesthesia

Volume - 6, Issue - 4, Year - 2019 ([www.ijca.in](http://www.ijca.in))

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

### Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

### Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2025-01-20**.

The screenshot shows the homepage of the Manuscript Peer-Review Process (MPRP) website. The header includes the logo, navigation menu (About MPRP, Journals, Support and Training, Contact us, Track article status, Register, Login), and contact information (Email: support@iesrf.in, editor@iesrf.in, support: +91-11-639414, 639415 | 9850429446 | 8850429446). The main content area features a section titled "Manuscript Peer-Review Process" with a detailed description of the web-based portal's services and flexibility. An illustration depicts a person working at a desk with a laptop, surrounded by icons representing various stages of the review process. A "Why MPRP?" section is partially visible at the bottom.

**Manuscript Peer-Review Process**

Manuscript Peer-Review Process is a web-based portal that can be accessed 24\*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd. which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

**Why MPRP?**

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your

**CONTENTS****Editorial:**

---

**Follow the Mantra 'Reduce, Reuse and Recycle' for anaesthetists- to minimize pollution 478-480***Pallavi Ahluwalia***Original Article:**

---

**Comparison of intrathecal Tramadol and Magnesium sulfate as an adjuvant to Levobupivacaine in mild Pre-eclamptic parturients undergoing caesarean section A prospective randomized control study 481-487***Aditi A Dhimar, Vallary Modh, M R Upadhyay***Comparison of butorphanol and clonidine for control of intraoperative shivering under spinal anaesthesia 488-492***Jyotsna Pravin Bhosale, Basharat Muneer Bandy***Intranasal midazolam: Sedation for radiological procedures 493-496***Daxa Hiren Oza, Vaibhavi Patel, Priya Pathak, Rahul C Manek, Miunalini G Patel***Dexamethasone an adjuvant in brachial plexus block : Supraclavicular approach: An observational randomised double blind clinical study 497-501***Anupama M K, Rakesh Alur T***Intra-Cuff lignocaine, saline, Air and hydrocortisone on incidence of post-extubation airway complications - A randomised controlled study 502-507***Sandeep Katteppura Rajegowda, Ashwini G S***To compare the efficacy of oral aspirin vs intravenous diazepam on succinylcholine induced postoperative myalgia 508-512***Ramesh R, Kantharaja H E, Sushma P, Dayanand V P***Intravenous dexmedetomidine versus fentanyl to attenuate haemodynamic stress response to laryngoscopy and endotracheal intubation 513-518***V Y Srinivas, Priya K, Kokila N***Study on evaluating the effect of Intravenous dexmedetomidine on depth of anaesthesia in patients undergoing lower segment cesarean section under general Anaesthesia 519-522***G K Jeevapriya, R Selvakumar***Comparison of dexamethasone and dexmedetomidine as adjuvants to bupivacaine in supraclavicular brachial plexus block: A prospective randomized study 523-527***Sethuramachandran Adinarayanan, Rashmi Chandran, Srinivasan Swaminathan, Gnanasekaran Srinivasan, Pr***Effect of intraoperative volume status and hemodynamics on patients undergoing laparoscopic bariatric surgeries : A retrospective study 528-531***Kamakshi Garg, Kamyia Bansal, Ashish Ahuja*

**Comparison of 2-chloroprocaine 1% versus hyperbaric bupivacaine 0.5% for subarachnoid block in pregnant females posted for elective caesarean section 532-537**

*Ashwini S, Kumara A B*

**Retrospective evaluation of general and regional anaesthesia among hypertensive patients undergoing surgery 538-542**

*M Vasantha Kumar, B Ravi*

**Null:**

---

**Evaluation of basic life support orientation program for first year medical students; scopes for further improvement 543-547**

*Vikramjeet Arora, Manju Bala, Sumit Chawla*

**Original Article:**

---

**Efficacy of fentanyl versus sufentanil for labour analgesia and its comparative evaluation with intramuscular tramadol 548-552**

*Sudhir Pawar, B Naveen Naik, Vamsidhar Amburu, Tanvir Samra*

**Null:**

---

**Comparasion of intravenous Nalbuphine versus intravenous Paracetamol for postoperative analgesia in patients undergoing surgeries under general anaesthesia 553-558**

*Rashmi H D, Hanumanthappa V Airani*

**Original Article:**

---

**Comparison of the effects of propofol and sevoflurane on postoperative cognitive functions and memory in patients undergoing general anaesthesia 559-564**

*Malti J Pandya, Richa Mukeshbhai Tailor, Pragna N Vachhrajani*

**Role of ultrasound in diagnostic genicular nerve block for knee osteoarthritis pain 565-569**

*Sandeep Khuba, Saipriya Tewari, Sanjay Kumar, Sujeet Gautam, Anil*

*Agarwal*

**Comparison of postoperative analgesia after intraarticular injection of two different doses of morphine (5 mg) and Morphine (10 mg) with 0.5% bupivacaine in arthroscopic knee surgery : Randomized, double blinded prospective study 570-575**

*Geetha Acharya, Sumedha Mehta*

**To compare the efficacy of dexmedetomidine and esmolol in attenuation of pressor response to laryngoscopy and intubation in patients undergoing general anaesthesia for elective laparoscopic cholecystectomy 576-580**

*Saurabh Varshney, Vaibhav Shahi, Madhu Bhardwaj*

**A comparative clinical study between dexmedetomidine and nitroglycerine for controlled hypotensive anaesthesia in spine surgeries 581-586**

*Meena Paul. P, V. Y Srinivas, Jyothsna Gopinathank N K, Harikrishnan K.V*

**Comparison of etomidate and propofol for moderate sedation during ERCP: A randomized clinical study 587-591**

*Karishma Jain, Namita Gupta, Durga Jethava*

**A prospective study to compare the quality of analgesia after breast cancer surgery using pectoral nerve block versus thoracic paravertebral block 592-595**

*S Meena, H. M Hajashareef, T Murugan*

**Comparative study of anterior and posterior approaches for sciatic nerve block for lower limb and**

**foot surgery in diabetic patients 596-600**

*Rashmee V Chavan, Ahmed Mubariz Uddin*

**Predicting difficult intubation: A comparison between upper lip bite test (ULBT) and Modified Mallampati test (MMT) 601-606**

*Madhurima Sinharay, Rashmee V Chavan*

**Comparison of hemodynamic responses to laryngoscopy and orotracheal intubation between Macintosh laryngoscope and king vision video laryngoscope in adult surgical patients 607-613**

*Shirley Joseph, Bindu George, Surekha*

**The effect of intravenous single dose of magnesium sulphate on attenuation of hemodynamic pressor response after mayfield's clamp application during craniotomies 614-619**

*Samir Ahmed ElKafrawy*

**Case Report:**

---

**Ultrasound guided stellate ganglion block for ventricular tachycardia storm 620-622**

*Ashwini K Ukey, Shashidhar Matam*

**Very rare and serious complication of central line insertion 623-626**

*Ojaswani Rai Sood*

**Others:**

---

**Awareness during anaesthesia. . . Its medicolegal threat. . . How to tackle it? 627-630**

*Aseem Gargava, Manjula Sarkar*
