## Indian Journal of Clinical Anaesthesia

Volume - 7, Issue - 1, Year - 2020 ([www.ijca.in](http://www.ijca.in))

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

### Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

### Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2025-02-06**.

### Advertisement

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@iesrf.in, iesrf@iesrf.in' and 'Support: +91-11-839414, 839415 | 9850429446 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and describes the web-based portal's 24/7 availability and editorial services. It includes an illustration of a person at a computer. Below the text, it states 'MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is an in-house product of IP Innovative Publication Pvt. Ltd. The advertisement concludes with the heading 'Why MPRP?' and a partial sentence: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

**CONTENTS****Editorial:**

---

**Social media is providing new horizons for medical research. Can it replace medical journals? 1-2***Pallavi Ahluwalia***Review Article:**

---

**Diacerein- A gold standard analgesic in management of osteoarthritis 3-7***Yoganarasimha N***Original Article:**

---

**Comparison of changes in haemodynamic parameters in hypertensive patients after laryngoscopic endotracheal intubation or laryngeal mask airway insertion 8-11***N Vijayarahavan, P P Mahilamani, A Paramasivan***Dexmedetomidine as an adjuvant to infraorbital block in children undergoing cleft lip surgery - A clinical comparative study 12-15***R D Ravichandra, G B Sumalatha***Comparison of levobupivacaine alone and levobupivacaine with dexmedetomidine in supraclavicular brachial plexus block: A prospective randomized clinical trial 16-22***Sudhir Sachdev, Vivek Sharma, Aman Malawat, Durga Jethava, Khayyam**Moin***Relation between right ventricular function and the time of extubation after total repair of tetralogy of fallot in the pediatric population 23-31***Gamal A Abdelhameed, Waleed I Ibraheem, Samar M Abdeltawab, Simon H**Armanios***Ultrasound guided bilateral rectus sheath block for post operative analgesia in patients undergoing umbilical surgeries under GA. A comparative study between bupivacaine, levobupivacaine and Ropivacaine 32-38***Upasna V Bhatia, Mona B Panchal, Shyni Abraham, Charmi Shah***Challenges in airway management of trauma patients: An update 39-45***Abhijit Kumar, Amit Kohli***Effectiveness of intravenous boluses of phenylephrine, ephedrine and mephentermine as vasopressors for management of perioperative hypotension in elective lower segment caesarean section under spinal anaesthesia - A prospective comparative study 46-53***Garima Sinha, Hemalatha S, Gurudatt C L***Injection with long chain triglyceride or long chain triglyceride/medium chain triglyceride propofol: Which is less painful? 54-58***Pankajkumar B Parmar, Jyotsna F Maliwad, Jaydev K Dave, Kalpita S**Shringarpure, Raman D Damor***Comparative study of palonosetron and ondansetron in prevention of post operative nausea and vomiting after laparoscopic gynaecological surgeries 59-63**

Ankita Choudhary, Vinod Parashar

**A randomized comparative study of Airtraq®, McCoy and Macintosh laryngoscopes for endotracheal intubation in patients with simulated difficult airway using a rigid cervical neck collar in elective surgeries under general anaesthesia 64-70**

Arjun Haridas, Raghavendra Babu T, Gurudatt C L

**A prospective randomized study of the post-operative outcomes of thoracic epidural analgesia in patients undergoing coronary artery bypass graft surgery 71-76**

Reema Meena, Pinu Ranawat

**A clinical study of effects of 30 ml of 1.5% lidocaine with adrenaline and 30 ml of 0.333% levobupivacaine for axillary block using nerve stimulation technique 77-82**

D R Sushma, V Y Srinivas, Jyothsna Gopinathan N K

**A comparative study of intravenous febrinil vial (150mg/ml) vs intravenous paracetamol (1gm/100 ml) pint formulation for postoperative analgesia 83-87**

Khyati R Vaghela, Urmi Mittal Dave, Chetna A Jadeja, Dharti R Chaudhari,  
Jindal J Gohil

**A comparative study to evaluate the analgesic efficacy of unilateral transverse abdominis plane block versus bilateral tap block using 0.25% bupivacaine in laparoscopic nephrectomies 88-93**

Shivika Nath, Sahil Gupta, Dipankar Dhar, Suneva Sadhu, Dushyant Nadar,  
Piyush Varshney

**Prospective comparative study of preoperative use of oral gabapentin with and without intravenous dexamethasone for postoperative pain, nausea and vomiting in patients undergoing cesarean section under spinal anaesthesia 94-98**

Soumya Rohit, Madhumala H R, Sachitha D

**To evaluate efficacy and safety of diclofenac transdermal patch with intramuscular diclofenac injection as preemptive analgesia in post operative patients undergoing inguinal hernioplasty 99-103**

Manish Banjare, Kaushal Kishor Kabir, Arpit Agarwal, K K Arora

**Low dose spinal anaesthesia for caesarean section in parturients having pregnancy induced hypertension: Effect on haemodynamic response and vasopressor requirement: A prospective randomized double blind case control study 104-111**

Virendra Kumar Verma, Rajeev Navaria, Udit Naithani, Anjuri Goyal,  
Saurav Aditya Das

**Clinical investigation on the analogy between the ketofol (Amalgamation of Ketamine and Propofol) and ketamine and midazolam for procedural sedation - A single blinded study 112-116**

Rajesh Kumar Donda, Gangadhara Reddy Annareddy, Ramudu Nattala, M  
Usha Rani

**A comparative evaluation of intranasal dexmedetomidine with and without nalbuphineas premedication for pediatric dental patients**

S K Sonker, K P Mall, Sujeet Rai

**A comparative study to evaluate the effect of 8% sevoflurane compared to 1% Propofol for insertion of laryngeal mask airway in adult patients -A prospective, randomised & controlled study 123-128**

Nellimarla Appalaraju, Batchu Vishnu Mahesh Babu, T Prem Sagar

**Addition of dexmedetomidine to ropivacaine for lower limb orthopaedic surgery under spinal**

**anaesthesia to study its effect on block characteristics- An observational study 129-135**

*Pallavi Ahluwalia, Taqui Fakri*

**Attenuation of sympathoadrenal response to direct laryngoscopy and intubation using 0.25mg/kg injection labetalol 136-141**

*Sindhu S, V Y Srinivas*

**Ropivacaine vs ropivacaine with morphine after arthroscopic surgery - A study of analgesic efficacy 142-146**

*Kishan Shetty, Prithi Jain, Nichelle M Saldanha, Ashton Dionel Dsouza*

**A comparison of intrathecal low dose Dexmedetomidine and clonidine as an adjuvant to bupivacaine in patients undergoing gynecological surgeries 147-152**

*Upasna V Bhatia, Smitul Dave, Renish Rafikbhai Hudda*

**A comparative study of intramuscular dexmedetomidine alone and intramuscular dexmedetomidine with intravenous fentanyl on hemodynamic response to laryngoscopy and endotracheal intubation for ear surgery under general anesthesia 153-157**

*Neepa Patel, Ayush Shah, Malti J Pandya*

**Effect of prophylactic phenylephrine and ephedrine added to the co-loading solution on maternal hypotension, nausea and vomiting in patients undergoing caesarean section in a remote Indian Island 158-165**

*Narayanan Rajaram, Habib Md Reazaul Karim, Mridul Dhar, Anilkumar*

*Narayan, Avinash Prakash, Erode Purusothaman Sharanya, Ritu Singh*

**Comparative evaluation of dexmedetomidine and ketamine for epidural analgesia in lower limb orthopedic surgeries 166-171**

*Malti J Pandya, Ayush Shah*

**Efficacy of preoperative melatonin and ramelteon (melatonin agonist) therapy on dose requirement of propofol for induction of general anaesthesia: A comparative prospective study 172-176**

*Kuntal Roy, Manas Ranjan Panigrahi, Bhabananda Mukhopadhyay, Santanu*

*Bisak, Binay Kumar Biswas*

**Efficacy and safety of intravenous phenylephrine and mephentermine for management of hypotension during spinal anaesthesia: A single blind prospective and comparative study among patients undergoing cesarean section 177-181**

*Niraj Kumar Chaturvedi, Manas Ranjan Panigrahi, Bhabananda*

*Mukhopadhyay, Binay Kumar Biswas*

**Evaluating the effect of intramuscular dexmedetomidine or clonidine on the duration of anaesthesia and analgesia for lower abdominal surgeries under sub-arachnoid block 182-186**

*Sasha MM, Shailaja S*

**Sedative effect of propofol and midazolam in surgery under spinal anaesthesia: A comparative study 187-191**

*Jalpen N Patel, Jyotsna F Maliwad, Purvi J Mehta, Raman D Damor, Kalpita*

*S Shringarpure*

**Case Report:**

---

**Anesthetic management of an oropharyngeal mass: role of pre anesthetic assessment 192-194**

*Madhu Gupta, Tarang Jain*

**Still's disease and anaesthetic concerns: A case report 195-197**

*Gaurav Agarwal, Lalit Gupta*

## Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24\*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of **Innovative Publication Pvt. Ltd.** which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

### Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
