

IJCA

Indian Journal of Clinical Anaesthesia

Volume - 8, Issue - 2, Year - 2021 (www.ijca.in)

Indian Journal of Clinical Anaesthesia (IJCA) open access, peer-reviewed quarterly journal publishing since 2014 and is published under auspices of the Innovative Education and Scientific Research Foundation (IESRF), aim to uplift researchers, scholars, academicians, and professionals in all academic and scientific disciplines. IESRF is dedicated to the transfer of technology and research by publishing scientific journals, research content, providing professional's membership, and conducting conferences, seminars, and award programs.

With the more...

Call for paper

We cordially invite faculty, researchers, and scholars to submission of your valuable contribution to our Upcoming issues. It is a double-blind, peer-review, and Open Access (OA) journal and accepts manuscripts as research papers, review articles, case reports, short communication, etc.

Manuscript Submission Guidelines

To submit your manuscript, first-time users click the Register button from the submission portal. If you are already a registered user, log in as an author and post your manuscript for further peer-review process. Manuscripts submitted for consideration and inclusion in upcoming issues must follow <https://www.ijca.in/info/author> and be submitted by **2024-12-07**.

The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, iesrf@iesrf.in' and 'Support: +91-11-639414, 639415 | 9850429446 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and contains the following text: 'Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels. MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of IP Innovative Publication Pvt. Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals. Why MPRP? If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'. An illustration shows a person at a desk with a laptop, surrounded by icons representing various aspects of the peer-review process like 'Quality of work', 'Editorial workflow', and 'Post-publication services'. The IESRF logo is visible in the bottom right corner.

patients undergoing laparoscopic cholecystectomy: A randomized prospective study 205-208

Neelesh Anand, Shashi Prakash, Mandeep M H Madia, Braj Nandan Singh, Reetika Gupta

Transversus abdominis plane block versus wound site infiltration using 0.25% bupivacaine for post-operative analgesia after caesarean delivery performed under subarachnoid block 209-213

Deepak Kumar, Sonia Wadhawan, Amit Kohli, Poonam Bhadoria, Abhijit Kumar

A randomised controlled double blind study to assess the effect of oral tizanidine premedication on intraoperative isoflurane consumption in patients undergoing laparoscopic surgeries under general anaesthesia 214-220

Bhargavi Sanket, Samudyatha T J, Nethra S Surhonne, Sudheesh Kannan, Swathi Nagaraj

"Balanced hyperosmolar therapy" using 3% hypertonic saline - 20% mannitol versus an equiosmolar volume of either 3% hypertonic saline or mannitol 20% in supratentorial tumor resection: A new approach to achieve hemodynamic stability 221-229

Samir A Elkafrawy, Mahmoud K Khames, Islam M Kandeel

Comparison of effects of low dose ropivacaine with levobupivacaine on quality of analgesia, maternal satisfaction and neonatal outcome during labor through combined spinal epidural approach: A double blind randomized study 230-235

Archana Agarwal, Trilok Chand, Shruti Sharma, Unni Jithendran

Comparative study of ondansetron, granisetron and granisetron with dexamethasone for prevention of postoperative nausea and vomiting (PONV) in patients undergoing laparoscopic cholecystectomy 236-242

Chennupati Prabhu Kishore, Manjula Sudhakar Rao, Serah Paul Kooran, Ravindra Kumar Arora1, Alok Basu Roy

Effect of tonsillar fossa cooling with cold saline on early post-tonsillectomy pain: A randomized, double-blind controlled study 243-249

Joseph Abraham Poonuraparampil, Kusuma R Halemani, Habib M R Karim, Meryl R John, Tuhin Mistry

Comparison of hemodynamic effects of etomidate and propofol as an induction agent in patients with LVEF 40% undergoing elective coronary artery bypass grafting surgery - A prospective and randomized study 250-256

Dharmendra Carpenter, Brijesh Soni, Pradeep Kumar Goyal, Mukesh Godara

Comparison of dexmedetomidine and fentanyl as adjuvants to 0.5% hyperbaric bupivacaine in spinal anesthesia in elective lower abdominal surgeries 257-264

V Sai Divya, Rajola Raghu, P Indira, Sadhana Roy

Dexmedetomidine as an adjuvant for extension of postoperative analgesia in ropivacaine induced supraclavicular brachial plexus block 265-269

Mahendra Vangani, Deepak Soni

The effect of different doses of chloroprocaine 1% for low dose saddle anaesthesia in outpatient perianal surgery: A prospective randomized study 270-276

Shweta Jain

Direct laryngoscopy versus video laryngoscopy for expected difficult tracheal intubation a

prospective study 277-282

Munish Palliyalil Kakkolil, Venugopal Achuthan Nair, Brahmanandan Radhika Devi, Jagathnath Krishna Kumarapillai Mohanan Nair, Cherian Koshy Rachel

An evaluation of efficacy of addition of dexmedetomidine /clonidine to fentanyl in attenuation of pressor response of laryngoscopy and intubation: A prospective double blind randomized controlled trial 283-287

Rekha Meena, Lalit Kumar Raiger, Yogendra Singhal

Comparative study of thiopentone sodium, propofol, etomidate for anesthetic efficacy & effect on seizure duration in electroconvulsive therapy 288-293

Reema H Vansola, Ramila H Jamliya, Divya D Toshaniwal, Milind J Mevada

Comparison of fentanyl and nalbuphine in obtunding stressor response to laryngoscopy and endotracheal intubation 294-301

Milon V Mitragotri, Safiya I Sheikh, Roopa Sachinananda, Vikas Joshi

Comparative study of intrathecal fentanyl with bupivacaine and fentanyl midazolam with bupivacaine in spinal anaesthesia 302-309

Shweta Mehta, Danish A Khan, Vishruti R Shah

Effect of dexmedetomidine on hemodynamic and recovery responses during tracheal extubation 310-315

Shabeel Aboobacker C P, Shamjith Kunikkakath, Melbin Baby, Salman Mohammed Kutty C

The efficacy of thoracic epidural anesthesia for breast surgeries 316-320

S Vishwanath, Safneedha

The role of tolvaptan in prevention of hyponatremia in patients undergoing transurethral resection of prostate surgery- A randomized double blind study 321-325

Dinesh Kumar Singh, B.B Baj, Vipin Goyal, Durga Jethava

Dexmedetomidine versus Lignocaine for extubation in patients undergoing craniotomies 326-330

Safneedha, S Vishwanath

Anaesthetic management of maxillofacial surgeries: A cross-sectional survey to analyze current trend of practices 331-334

Akhya Kumar Kar, Ayya Syama Sundar, Emmala Mounika

Knowledge about adult basic life support (BLS) among interns completing internship and first year MBBS students who underwent BLS training during foundation course - An observational study from a tertiary health care centre 335-340

Ashwini H, Bharati N Ganar, Sridevi Gudi

Case Report:

Anaesthetic management of a case of congenitally corrected transposition of great arteries for non cardiac surgery: A case report 341-344

Charuta P Gadkari, Heena D Pahuja, Neha G Wakode, Anjali R Bhure

Anesthetic challenges involved in successful resuscitation of a child from cardiac arrest secondary to massive hemorrhage and possible venous air embolism while undergoing fronto-orbital advancement surgery for metopic craniosynostosis 345-348

Gokuldas Menon, Pawan Kumar, Nimish Danial, Mathew George

Management of intra operative priapism after spinal anesthesia with intravenous glycopyrrolate and intracorporeal injection of ultra low dose of phenylephrine- A case report 349-351

Tshering P Bhutia, Neeraj Bhattarai, Tsewang D Bhutia, Rajni, Sonam D Bhutia
