The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header features the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, iesrf@iesrf.in' and 'Support: +91-11-6336414, 6336415 | 9850425146 | 88'. A navigation menu includes 'About MPRP', 'Journals', 'Support and Training', 'Contact Us', 'Track article status', 'Register', and 'Login'. The main content area is titled 'Manuscript Peer-Review Process' and describes the service as a web-based portal accessible 24/7, offering editorial services, journal pre-publication services, and post-publication services. It highlights a high level of flexibility and integration with existing workflows. An illustration shows a person at a desk with a laptop, surrounded by icons representing various aspects of the process. Below the text, it states 'MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is an in-house product of IP Innovative Publication Pvt. Ltd. The advertisement concludes with the heading 'Why MPRP?' and a partial sentence: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

CONTENTS

Original Article:

Comparitive evaluation of different concentrations of alcohol in ultrasound guided coeliac plexus neurolysis for pain relief in upper abdominal malignancies 492-500

*Pragya Verma, Sarita Singh, Gyan P Singh, Hemlata Verma, Manish Kumar Singh**

Controlled comparison of ropivacaine with dexmedetomidine, clonidine and magnesium sulphate as adjuvant in caudal epidural block in paediatric population for infra-umbilical surgeries 501-506

*Vijaylaxmi Singh, Vandana Trivedi, Guriqbal Singh**

Assessment of post-operative analgesia in modified radical mastectomy patients using surgical wound irrigation with 0.25% bupivacaine 507-510

Muhammed Shafi C, Brejesh Ravi Varma, Mangesh Shenoy, Salman Mohammed Kutty*

A prospective randomised study of adjuvants for supraclavicular brachial plexus block: Clonidine vs Dexamethasone 511-514

Akanksha Aggarwal, Nimit Gandhi*

To observe the changes of optic nerve sheath diameter following the use of total intravenous anaesthesia with propofol or inhalational anaesthesia with desflurane during laparoscopic surgeries 515-520

Vijay Mathur, Pratikkumar Patel, Shruti Singhal, Durga Jethava*

Comparative evaluation of sevoflurane and propofol to facilitate insertion of supra glottic airway device 521-526

*Jyoti Kale, Priyanka Praphulchandra Khondalay, Neha Amey Panse**

Comparative study of ropivacaine with tramadol and ropivacaine with midazolam for post-operative epidural analgesia 527-531

Karthik V J, Selvam M, Sangeeth Charles, Murugan Thalaiappan*

Intranasal midazolam versus intranasal dexmedetomidine as premedication in paediatric patients: A comparative study 532-536

*Vimal Dangi, Sushil Chand Verma, Vinayak Gour**

Comparison of intravenous bolus doses of phenylephrine vs ephedrine along with crystalloid co-loading in the prevention of hypotension during spinal anesthesia for caesarean section 537-542

Arthi Asokan, Arunkumar Muthalu, Vimala Ananthu, Shoba Ujjwal*

A prospective randomized clinical study to compare the efficacy of 0.25% bupivacaine with clonidine and 0.25% levobupivacaine with clonidine in supraclavicular brachial plexus block for upper limb surgeries 543-550

Abhishek R, Arun Aravind, Shankaranarayana P*

Transversus abdominis plane block by landmark technique with ropivacaine versus bupivacaine

for post-operative analgesia in patients undergoing lower segment caesarean section deliveries 551-555

*Geetha R Acharya, Jyoti V Kale, Nidhi R Dabral, Aishwarya M Chavan**

Combined popliteal and saphenous nerve block vs NSAIDs for post operative analgesia in below knee surgery patients: A cross-sectional study 556-560

Amrita Gupta, Shanu Maheshwari, Avanish Kumar Saxena, Sukhdev Mishra, Aviral Pandey*

Perioperative effect of dexmedetomidine on quality of analgesia and hemodynamic parameters in vaginal hysterectomy: A tertiary centre experience 561-566

Nishit Sud, Sunil Sinha*

Comparison of analgesic efficacy of transversus abdominis plane block with local wound infiltration using 0.25% levobupivacaine for post cesarean analgesia: A randomized controlled trial 567-573

Baljot Kaur, Lalit M Sharma, Ripon Choudhary, Ridhima Sharma, Lalit Gupta*

Effectiveness and safety of cuff inflation technique over conventional method of Magill forceps for Nasotracheal intubation under direct laryngoscopy: Randomized controlled trial 574-578

*Apeksha Patwa, Ami Bhayani**

Nalbuphine versus dexmedetomidine for attenuation of haemodynamic response to laryngoscopy and intubation: A randomised double blind comparative study 579-585

Akanksha Rathore, Sujata Chaudhary, Mahendra Kumar, Rashmi Salhotra*

Review Article:

Analgesic efficacy of intercostal nerve block in percutaneous nephrolithotomy: systematic review and meta-analysis 586-593

Seema Prasad, Gopal Sharma, Saket Singh, Yashasvi Thummala, Santosh Kumar*

Case Report:

Anaesthetic management of a covid 19 positive parturient with newly diagnosed cardiomyopathy presenting with supraventricular tachycardia 594-596

Mangal Swathi Venkat, N Basker, A Karthikeyan*

Anaesthesia management of a difficult airway patient with severe aortic stenosis for major oncosurgery 597-599

Ninad Chodankar, Disha Kapadia, Hemant Mehta*

Anaesthesia management of a case of huge neck mass due to cervical spine chondrosarcoma with distorted anatomy 600-603

*Jyoti P Deshpande, Akshay M Salunke, Noopur D Singh, Utkarsha P Bhojane**

Peri-operative anaesthesia challenges in large anterior mediastinal mass - A case report 604-607

Rachna Wadhwa, Varun Sharma, Pallavi Ahluwalia, Vishnu Datt*

Anaesthetic implications for splenectomy in a child with Gaucher's disease 608-610

Praneeth R, Kesavakumar Venkatraj*

A case report of anaesthesia for craniotomy in sitting position 611-614

Dinesh Suryanarayana Rao, Veena Velmurugan*

Excision of intra-dural dorsal spine meningioma with intra-operative neuromonitoring in a patient with post-pneumonectomy status- an anaesthetic challenge 615-618

Amruta M Kulkarni, Vijay L Shetty*

Anaesthetic management of a case of pulmonary thromboembolism with pulmonary artery hypertension posted for bipolar hemiarthroplasty 619-623

Neha Amey Panse, Utkarsha Pradeep Bhojane, Phalke Tejaswini*

Letter to editor:

Need for modified PAC form in geriatric age group 624-625

*Pallavi Ahluwalia, Bhavna Gupta**

Short Communication:

A rare case of congenital bilateral bullous emphysema with vacterl anomaly with congenital heart disease 626-627

Pritam Jadhav, Maheshrao Thorat, Nikhil Shetty*

Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of **Innovative Publication Pvt. Ltd.** which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
