The advertisement is a screenshot of a website for the Manuscript Peer-Review Process (MPRP). The header includes the logo 'Manuscript Peer-Review Process' and contact information: 'Email: support@iesrf.in, editor@ijca.in, editor@ijca.in', 'Support: +91-11-6336414, 6336415 | 9850426446 | 9850426446'. The navigation menu contains: 'About MPRP', 'Journals', 'Support and Training', 'Contact us', 'Track article status', 'Register', and 'Login'. The main content area features the title 'Manuscript Peer-Review Process' and a detailed description of the service, including its 24/7 availability, editorial services, and integration with social and professional networks. An illustration shows a person at a desk with a laptop, surrounded by icons representing various aspects of the review process. The text concludes with 'Why MPRP?' and a partial sentence: 'If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your'.

CONTENTS**Review Article:****Beta blocker in post cardiac surgery patients 492-496**

Reza Widiyanto Sudjud, Tatang Bisri, Cindy Elfira Boom, Sri Endah Rahayuningsih

Original Article:**To evaluate role of gabapentin as a preemptive analgesic in patients undergoing modified radical mastectomy 497-501**

Tanmay Tank, Nita Gosai, Bipin Patel, Vedang Vaidya, Pooja Goswami

To compare the efficacy of LMA (Laryngeal mask airway) supreme and LMA proseal with LMA classic in paralysed, anaesthetized patients 502-506

Anita Kumari, Lakshmi Mahajan, Deepika Madaan, Pankaj Sarangal, Ruchi Gupta

A randomized prospective study of comparison of IV Fentanyl vs. femoral nerve block to facilitate administration of subarachnoid block in sitting position for femur fracture surgeries 507-511

P Vandana Pakhare, Pradeep Pendyala

Comparison of labetalol versus dexmedetomidine to assess the haemodynamic responses to laryngoscopy and intubation during induction of general anaesthesia - a prospective, randomized, controlled study 512-517

Alka Kewalramani(Chhabra), Seema Partani, Nagendra Prasad Sharma, Venus Sharma

Comparison of post-dural puncture headache using three different types of needles on sub arachnoid block- a clinical study 518-524

Arathi BH, Namrata Ranganaath

Comparison of propofol with propofol -midazolam for I-gel insertion in spontaneously breathing patients for elective day care procedures 525-528

Bhavani Vaidyanathan, S. Saravanakumar, Gomathi Karmegam

A double blind study comparing the effect of intravenous rabeprazole and pantoprazole on gastric pH and volume in laparoscopic surgery under general anaesthesia 529-533

Sumalatha GB, Ravichandra Ramesh Dodawad

Effect of addition of clonidine to bupivacaine in supraclavicular block- a prospective randomised case control study 534-539

Ilango Ganesan, R. Vasanthageethan, Arunachalam R

Evaluation and comparison of intra-articular Ropivacaine, Clonidine and Fentanyl on postoperative analgesia following arthroscopic knee surgery 540-545

Kavita Udaykumar Adate, Kalyani Nilesh Patil, Prashant Vilas Bhandari

Ultrasound guided internal jugular vein cannulation with short and long axis approach- Technical ease and complications 546-550

Madhavi Sanjay Chaudhari, Sanket Bharat Shah, Hemlata Vithal Kamat

Propofol or etomidate: Does it genuinely matter for induction in cardiac surgical procedures? 551-555

Manjunath Ratnakara Kamath, Suchitha Kamath, Krishna Prasad Patla

A comparison of effects of intrathecal clonidine and intravenous clonidine on duration of spinal anaesthesia 556-561

Namrata Ranganath, Arathi BH

Comparison of haloperidol with ondansetron in preventing post-operative nausea and vomiting after laparoscopic abdominal surgeries 562-567

Pradeep R, Amitha S, KV Srinivasan

Is four vital capacity breath pre-oxygenation technique useful?: A study 568-571

Prashant Raosaheb Ginimuge, Chaitanya Kamat

Evaluation of biphasic positive airway pressure [BIPAP] versus control mode, SIMV and CPAP in post anesthetic patients receiving elective post-operative ventilation 572-575

Prem Kumar, Sushma Vijay Pingale, Naheed Azhar

A randomized placebo controlled trial on evaluation of the efficacy of two different doses of pregabalin as a pre-emptive analgesia in gynaecological surgeries 576-582

Priti M. Patel, Rakesh D. Panchal, Bipin M. Patel

Comparison of intrathecal dexmedetomidine and fentanyl on quality of subarachnoid block in patients undergoing lower abdominal surgeries: a randomized double blinded study 583-587

Rashmi Suresh Patil, Vandana A Gogate, CS Sanikop

Cuff pressure manometer - a luxury or necessity? 588-592

Sangeetha Balakrishnan, Kevin Koshy Jacob

A randomized double-blinded comparative study of 0.25% Ropivacaine and 0.25% Bupivacaine by Caudal epidural for Paediatric sub-umbilical surgeries 593-598

Sendhil Kumar Mohan, R. Selvakumar, M. Suresh, K. Chandran

A comparative study of efficacy of three different proportions of ketamine and propofol in minor gynaecological procedures 599-603

Senthil Marappan, Prabhu Thilaak, Aparna Sukumaran, Sabapathy

Vadugapalayampudur Appavoo, Shankar Ra

Use of dexmedetomidine or buprenorphine along with bupivacaine for ultrasound guided brachial plexus block: a comparative randomized prospective study 604-606

S. Sivakumar, K. Rajarajeswaran

Intrathecal dexmedetomidine versus morphine as adjuvant to bupivacaine in elective LSCS: a comparative study 607-610

Soumya Samal, Shaswat Kumar Pattnaik, Ankita Mohta, Saubhagya Kumar

Jena

A prospective double blinded study on effect of intrathecal dexmedetomidine as adjuvant to hyperbaric bupivacaine on onset and duration of subarachnoid blockade 611-615

Sudhanshu Gupta, Abha Gupta, Brahma Pada Sarkar

A randomized controlled trial on comparison of sevoflurane induction to propofol induction for insertion of laryngeal mask airway in adults 616-620

Sunder Paneerselvam, MN Nandakumar

A randomized controlled trial to compare crystalloid and colloid co-loading in preventing spinal hypotension in parturients undergoing caesarean section 621-625

Sushma KS, Jyoti B, Safiya I Shaikh

Intrathecal neostigmine with hyperbaric bupivacaine on the effects of spinal anaesthesia and postoperative analgesia - randomised prospective double blind study 626-630

*Radha Korumbil Raghavan, Ushakumary Reghunathan, Bindu Meleveethil,
Anis Jassir Meleveetil*

Comparison of preoxygenation in supine position versus 150 head up tilt to look for duration of non-hypoxic apnoea in non-obese healthy adults 631-634

Yoganarasimha N, Shashank MR, Raghavendra TR, Radha MK

An evaluation of (0.25%) Bupivacaine Vs (0.5%) Ropivacaine for postoperative analgesia using ultrasound guided transversus abdominis plane block for abdominal surgeries: A comparative study 635-639

Neha Sharma, Nandita Mehta, Shikha Sharma

Case Report:

Palatal Fistula repair by Tongue Flap- A challenge to Anaesthesiologist 640-642

Ragi Jain, Puneet Bhandari

Manuscript Peer-Review Process

Manuscript Peer-Review Process is a web-based portal that can be accessed 24*7 under good internet connection. It is a set of editorial services that allows a user to run a journal efficiently. It includes journal pre-publication services, editorial workflow & post publication services. We provide a high level of flexibility, so you can select the services you need and integrate your existing workflow. It allows smooth flow of all publication functions of an editorial office on a single independent platform, no software installation is required, only requires Username, Password to login in different panels.

MPRP manages all the authors, reviewers, editors' details and its integration with the social and professional network. It is inhouse product of Innovative Publication Pvt.Ltd, which is managed and operated by Innovative Publication and currently running with around 50+ Journals.

Why MPRP?

If your research is ready to share with world, our submission portal will help you with a user-friendly platform to submit your
